Larymar Professional Treatment is a line of latest generation products specially designed for top-end beauty salons.

These anti-ageing cosmetics are created specifically for professional use in salon treatments.

Through the combined action of five different anti-ageing cosmetics (each one to be used in individual treatment stages), Larymar Profes-

sional Treatment acts deep down in the skin. A luxurious line of exclusive products dedicated to the most demanding beauty professionals.

An outstanding treatment that lends your skin incomparable youth.

An exclusive formula that regenerates the epidermis in just a few steps, leaving it glowing and fresh.

F I V E P R O D U C T S F O R A N A G E L E S S S K I N

Larymar Professional Treatment provides an exceptional anti-ageing effect by combining the action of five different products so as to visibly reduce skin spots and signs of ageing.

The first step in the process promotes gradual exfoliation of the skin. Larymar Step 1 and Step 2 must be blended together to form a cream with a remarkable peeling action.

Following application, the exfoliating process is stopped with Larymar Step 3. Your face is now cleansed, moisturised, and soft and ready for the final steps.

Larymar Filler Mask is the heart of the process, with the hyaluronic acid featured offering properties that smoothen out wrinkles and reduce damage caused by sunlight.

For an outstanding lifting effect, in the last step, you can choose between the gentle Larymar Filler Cream or the Larymar Lifting Serum, whose more concentrated formula is recommended for the treatment of deeper damages.

Larymar Professional Treatment's exclusive formula includes natural plant-based ingredients above all else and guarantees immediate benefits for all skin types.

The results are far superior in terms of exfoliation, epidermal turnover, and final softness.

Larymar Professional Treatment is a line of latest generation products designed specially for top-end beauty salons and professionals who refuse to compromise on results.

Larymar Professional Treatment Step 1 is the ideal cosmetic for professional use in salon treatments to tackle the first cosmetic peeling stage.

With its exclusive formula, which includes natural plant-based ingredients

above all else, this step stimulates tissue repair processes, leaving the skin soft, supple, and smooth.

It protects your skin from the ageing caused by build-ups of free radicals.

S T E P 2 : P E E L I N G

The second step, which must be carried out together with Larymar Step 1 and Larymar Step 3, involves the application of this special cosmetic, whose formula is based on papain, bentonite, and talc. This step reduces the build up of shedding stratum corneum skin cells, pro-

motes epidermal turnover, and renews your skin with a delicate peeling action that eliminates even the most stubborn areas of flakiness. Larymar Step 2 creates a pleasantly dry feeling and leaves your skin soft and velvety smooth.

S T E P 3 : P E E L I N G

The first part of the peeling treatment aims to eliminate dead cells through a gradual exfoliation process.

The process ends when the face is cleansed, moisturised, and soft, and is ready for the following steps.

Larymar Step 3 sloughs off waste from your skin and leaves it cleaner, even deep down.

This professional peeling moisturises, softens, and polishes the skin, leaving an immediate and lasting sense of wellbeing.

S T E P 4 : A N T I - A G E I N G

Larymar Step 4 Filler Mask is a facial mask that revitalises the skin, providing immediate, clearly visible results. This step fills and smoothes wrinkles through the moisture sealing and plumping properties of the hyaluronic acid featured.

Filler Mask prevents the production of melanin pigments and therefore reduces marks caused by sunlight. The mask also prevents the formation of free radicals by increasing transport of the active ingredients and boosting skin hydration.

S T E P 5 . A : F I L L E R C R E A M

Larymar Step 5A Filler Cream is the ideal product to effectively complete the lifting treatment for the face and neckline. Its filling action plumps away wrinkles and reduces signs of ageing, while the Argan oil contained nourishes your skin deep down.

The exclusive formula offers a double action in one product, with the filler providing an immediately visible lifting

effect, while the innovative molecule renews the epidermis from deep down, stimulating the production of elastin and collagen.

This way, Larymar Filler Cream furnishes a lasting lifting effect, which carries on long after application, boosting the integrity of the skin barrier and improving transport of the active ingredients.

S T E P 5 . B : I N T E N S I V E S E R U M

With its antioxidant action, Step 5B Intensive Serum offers the most powerful lifting effect of all the products in the Larymar Professional Treatment line. Applying the Serum instead of Larymar Filler Cream results in an amazing immediate lifting effect.

Its concentrated formula is perfect for the treatment of more damaged skin, with deep wrinkles, and dark circles around the eyes. Just a few minutes after application, your face seems younger, brighter, and more toned, and your skin feels soft and moisturised.
